

DANNY

ENVIRONMENT ARTIST

||| ABOUT ME

My name is Danny, 25 years old, Currently going to NHTV Academy for Digital Entertainment, following the 3D Visual Art education. I like (semi)realistic environments and some of the games I play have these type of environments. Some examples are: Tomb Raider, Sniper Ghost Warrior, Killing Floor, Dead Island, Borderlands and Hitman. I am an Achievement Hunter and if the possibility occurs to get a perfect game at 100%, I do take the time to complete and achieve that.
